September 7, 2010

Dear Senior Parent/Guardian,

The quality of education in our schools does not rest solely with educators. When a strong team consisting of parents, community members and Santa Susana High School teachers join together, our students benefit.

It will soon be time for your senior student to receive their Senior Project information and begin the process of deciding on a specific Senior Project topic. It is very important that the choice they make be an option that has been carefully thought out and discussed with you. To that end, we will hold a senior project parent night on **Wednesday, September 15, 2010 in the SSHS Multipurpose Room at 7:00 p.m.**

At this meeting you will receive important information that will assist you in conversations with your senior regarding this process and in supporting their efforts throughout. You will hear about the various aspects of Senior Project, including the requirements and the timeline for completion.

It is extremely important that you attend this meeting, as the Senior Project is not only a major requirement of the senior English program, but one of the most important learning experiences that your son/daughter will have during their senior year.

Your involvement will only make this Senior Project experience more rewarding for them. I look forward to seeing you there.

Sincerely,

Pam Carter,  
Principal, SSHS
